

Let diners order directly from you and keep 100% of the profits

This is a trying time for the restaurant industry, causing many of our customers to make tough calls and reimagine how they do business.

In response, we're launching TouchBistro Online Ordering and offering this solution free of charge for 12 months, with no contract.

You can start accepting online orders today by updating your POS software to the latest version and following our quick and easy digital onboarding.

Make Ordering More Convenient – for You & Your Diners

Online orders flow directly from your website and tbdine.com to your point of sale in real-time. Say goodbye to missed or inaccurate orders.

Increase Takeout & Delivery Revenue

Tap into hungry diners near you by offering in-venue pick up or drop off through your own delivery fleet.

Own Your Ordering

Have full control of your online orders. Customers order directly from you, commission free!
