### Never Leave a Table Open

- **Accept reservations** through your own website, our web and mobile discovery apps, or Google reservations.
- **Maximize your revenue** by optimizing floor plans and tracking guest status to turn more tables and accurately quote wait times.
- **Reduce no-shows** with automatic SMS and email reservation reminders.

### Apply Insights to Drive Your Bottom Line

- **Get a seamless integration** between the POS and the reservation management platform to ensure that your FOH and BOH are working together.
- **Use advanced reporting** to view your trends, average spend, and share reviews and ratings from customers.
- **Access reporting anywhere, anytime** so you can stay on top of things even when you're not in venue.

### Give Guests a Tailored Experience

- **Customize reservation notes** for allergies, dining preferences, or special occasions to help turn a first-time guest into a regular.
- **Connect with guests** in real-time with two-way SMS communication so they can confirm, cancel, or even let you know if they're a little late.
- **Let guests curate their experience** by allowing them to easily search, book, modify, and manage their reservation all through our mobile and web platforms.

### Features include:

- Direct POS integration
- Floor plan & waitlist
- Advanced reservation reporting
- Automatic SMS and email reservation confirmations and reminders
- Reservations via your website, TouchBistro Dine and Google
